3. Notwithstanding any other rights to redeem the Certificates prior to the Maturity Date in accordance with these Terms and Conditions, the Certificates shall be terminated automatically and redeemed on an Automatic Early Redemption Date at the Automatic Early Redemption Amount per Certificate if on the Automatic Early Valuation Date directly preceding the relevant Automatic Early Redemption Date the Reference Price of each Underlying is equal to or above 90% of the relevant Initial Price of such Underlying.

The rights arising from the Certificates will terminate upon the payment of the relevant Automatic Early Redemption Amount and the relevant Fixed Amount as of the relevant Automatic Early Redemption Date.

4. The Issuer may at any time purchase Certificates in the market or otherwise. Certificates repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued or resold.

§ 6
PAYMENTS

1. All amounts payable pursuant to these Terms and Conditions shall be made to the Paying Agent subject to the provision that the Paying Agent transfers such amounts to the Clearing System on the dates stated in these Terms and Conditions so that they may be credited to the accounts of the relevant custodian banks and then forwarded on to the Certificateholders.

Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Certificates in the amount of such payment.

2. If any payment with respect to a Certificate is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this case, the relevant Certificateholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

§ 7
ADJUSTMENTS

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect on the Certificates and to preserve, to the extent possible, the economic profile of the Certificates prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.
2. An Adjustment may result in:

- (a) the Share being replaced by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and another stock exchange being determined as the Exchange,

and/or

- (b) increases or decreases of specified variables and values or the amounts payable under the Certificates taking into account:
 - (i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;
 - (ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or
 - (iii) any cash compensation or other compensation in connection with a Replacement;

and/or

- (c) consequential amendments to the Share related provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

3. Adjustments shall correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the relevant Cut-off Date shall be the (replacement) Share for the purpose of the Certificates, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Certificates. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be the (replacement) Share in accordance with the forgoing sentence. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether this is the case.
- (b) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments in cases where:
 - (i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether this is the case;
 - (ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile of the Certificates prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether this is the case; or
 - (iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) to preserve the economic profile of the Certificates prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share.
4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
 5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
 6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
 7. Any Adjustment in accordance with this § 7 does not exclude a later termination in accordance with § 8 on the basis of the same event.

§ 8

EXTRAORDINARY TERMINATION RIGHTS OF THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Certificates prematurely instead of making an Adjustment. If an Adjustment would not be sufficient to preserve the economic profile of the Certificates prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Certificates prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether this is the case.

The Issuer may also freely elect to terminate the Certificates prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Certificates prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Certificates prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of the Underlying or (B) it will incur materially increased costs in performing the Issuer's obligation under the Certificates (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) whether a Change in Law has occurred.

3. Any extraordinary termination of the Certificates shall be notified by the Issuer in accordance with § 13 within fourteen Exchange Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Exchange Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Certificates are called for redemption, they shall be redeemed at an amount per Certificate that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Certificates (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Certificateholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

§ 9 TAXES

All present and future taxes, fees or other duties in connection with the Certificates shall be borne and paid by the Certificateholders. The Issuer is entitled to withhold from payments to be made under the Certificates any taxes, fees and/or duties payable by the Certificateholder in accordance with the previous sentence.

§ 10 STATUS

The obligations under the Certificates constitute direct, unconditional and unsecured obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

§ 11 PAYING AGENT

1. Skandinaviska Enskilda Banken AB (publ), a banking institution incorporated under the laws of Sweden, whose corporate seat and registered office is at Kungsträdgårdsgatan 8, SE-106 40 Stockholm, Sweden, acting through its division SEB Merchant Banking, Securities Services, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 of the German Civil Code (*BGB*) and any similar restrictions of the applicable laws of any other country.

§ 12
SUBSTITUTION OF THE ISSUER

1. Any other company may assume at any time during the lifetime of the Certificates, subject to paragraph 2, without the Certificateholders' consent all the obligations of the Issuer under these Terms and Conditions. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under these Terms and Conditions with the same effect as if the New Issuer had been named as the Issuer herein; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Certificates.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
- (a) the New Issuer has agreed to assume all obligations of the Issuer under the Certificates pursuant to these Terms and Conditions;
 - (b) the New Issuer has agreed to indemnify and hold harmless each Certificateholder against any tax, duty, assessment or governmental charge imposed on such Certificateholder in respect of such substitution;
 - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Certificateholders compliance by the New Issuer with all obligations under the Certificates pursuant to these Terms and Conditions;
 - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised;
 - (e) Euroclear Sweden has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

§ 13
NOTICES

Notices relating to the Certificates shall be published on the website <https://fim.commerzbank.com> (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Certificateholder through such publication unless the notice provides for a later effective date. If applicable law or regulations of the stock exchange on which the Certificates are listed require a notification in another manner, notices shall also be given in the manner so required.

Other publications with regard to the Certificates are published on the website of the Issuer www.commerzbank.com (or any successor website).

§ 14
LIMITATION OF LIABILITY;
PRESENTATION PERIODS; PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with the Certificates only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Certificates (§ 801 paragraph 1, sentence 1 German Civil Code (*BGB*)) shall be ten years and the period of limitation for claims under the Certificates presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

§ 15
FINAL CLAUSES

1. The Certificates and the rights and duties of the Certificateholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany except § 1 paragraph 1 - 3 of the Terms and Conditions which shall be governed by the laws of the relevant jurisdiction of the Clearing System.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Certificateholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Certificateholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Certificates to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Certificates by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Certificates delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Certificates on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Certificateholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Certificateholder (and the rescission shall not take effect), unless the Certificateholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Certificates to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Certificateholder (as declared and proved by evidence in the request for repayment) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the traded prices of the Certificates on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Certificateholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Certificateholders. Notice of any such correction or amendment shall be given to the Certificateholders in accordance with § 13.
6. If the Certificateholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Certificates, then, notwithstanding paragraphs 2 - 5, the Certificateholders can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Certificates for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

C.11 Admission to listing and trading on a regulated market or equivalent market

The Issuer intends to apply for the listing and trading of the Certificates on the regulated market of Nasdaq OMX Stockholm with effect from 30 September 2016.

C.15 Influence of the Underlying on the value of the securities:

The redemption of the Certificates on the Maturity Date and, in the case of an automatic early redemption event, the relevant Automatic Early Redemption Amount to be paid on the relevant Automatic Early Redemption Date, as the case may be, depend on the performance of the Underlyings and the Conversion Rate, if any.

In detail:

Notwithstanding any other rights to redeem the Certificates prior to the Maturity Date in accordance with these Terms and Conditions, the Certificates shall be terminated automatically and redeemed on an Automatic Early Redemption Date at the Automatic Early Redemption Amount per Certificate if on the Automatic Early Valuation Date directly preceding the relevant Automatic Early Redemption Date the Reference Price of each Underlying is equal to or above 90% of the relevant Initial Price of such Underlying.

The rights arising from the Certificates will terminate upon the payment of the relevant Automatic Early Redemption Amount and the relevant Fixed Amount as of the relevant Automatic Early Redemption Date.

On the Maturity Date the Redemption Amount per Certificate will be equal to

- (i) the Exposure Amount multiplied by the Return Factor and the Participation Factor, if on the Final Valuation Date the Reference Price of each Underlying is equal to or above 50% of the relevant Initial Price of such Underlying; or
- (ii) the Exposure Amount multiplied by the Underlying Performance of the Worst Performing Underlying, in all other cases.

In the case set forth under (ii), the Redemption Amount will be below the Exposure Amount. If the Underlying Performance of the Worst Performing Underlying is 0 (zero), there will be no Redemption Amount payable at all.

Section D – Risks

The purchase of Certificates is associated with certain risks. The Issuer expressly points out that the description of the risks associated with an investment in the Certificates describes only the major risks which were known to the Issuer at the date of the Base Prospectus.

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the issuer	The Certificates entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.

Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:

Global Financial Market Crisis and Sovereign Debt Crisis

The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.

Macroeconomic Environment

The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.

Counterparty Default Risk

The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.

Market Price Risks

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

Strategic Risks

There is a risk that the Group may not benefit from the strategic agenda or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.

Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.

Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.

Risks from Goodwill Write-Downs

It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.

Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from the deposit-taking business, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

Legal Risks

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

D.6 Key information on the key risks that are specific to the securities

No secondary market immediately prior to final maturity

The market maker and/or the exchange will cease trading in the Certificates shortly before their scheduled Maturity Date. However, between the last trading day and the relevant valuation date, the price of the Underlying(s) and/or the exchange rate, both of which may be relevant for the Certificates may still change and any kind of threshold or price which may be relevant for the payments under the Certificates could be reached, exceeded or breached in another way for the first time. This may be to the investor's disadvantage.

No collateralization

The Certificates constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer can not or only partially fulfil the attainments due under the Certificates. Under these circumstances, a total loss of the investor's capital might be possible.

The proposed financial transactions tax (FTT)

The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. The proposed financial transactions tax could apply to certain dealings in the Certificates (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Certificates.

Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities

The Act on the Recovery and Resolution of Institutions and Financial Groups (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG*) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "**Bank Recovery and Resolution Directive**" or "**BRRD**") may result in claims for payment of principal, interest or other amounts under the Certificates being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "**Regulatory Bail-in**". The holders of Certificates would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Certificates. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Certificates – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the principal amount of the Certificates may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments that should become applicable as of 1 January 2016. A centralised decision-making will be built around a Single Resolution Board. This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz – KWG*). European banks that exceed the following thresholds for three consecutive years: a) total

assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.

U.S. Foreign Account Tax Compliance Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) Certificates issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Certificates issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Certificates treated as equity for U.S. federal tax purposes, whenever issued, pursuant to the foreign account tax compliance act provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010.

Impact of a downgrading of the credit rating

The value of the Certificates could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Certificates.

Adjustment and Extraordinary Termination

The Issuer shall be entitled to perform adjustments with regard to the Terms and Conditions or to terminate and redeem the Certificates prematurely if certain conditions are met. This may have a negative effect on the value of the Certificates. If the Certificates are terminated, the amount payable to the holders of the Certificates in the event of the termination of the Certificates may be lower than the amount the holders of the Certificates would have received without such termination.

Disruption event

The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Certificates and that might affect the value of the Certificates. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

Substitution of the Issuer

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Certificates, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Certificates in its place. In that case, the holder of the Certificates will generally also assume the insolvency risk with regard to the new Issuer.

Risk factors relating to the Underlying

The Certificates depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Certificates.

Risk relating to an automatic early redemption

Under certain circumstances as set forth in the relevant Final Terms, the Certificates may be redeemed early if certain conditions are met, which may adversely affect the economics of the Certificates for the investor. The automatic early redemption of the Certificates and the relevant Automatic Early Redemption Amount to be paid on the relevant Automatic Early Redemption Date depend on the performance of the Underlying(s). If the Certificates have an FX Exposure, the Automatic Early Redemption Amount of the Certificates may not only depend on the performance of the Underlying(s), but also on the development of the Conversion Rate.

Risk at maturity:

The redemption of the Certificates on the Maturity Date depends on the performance of the Underlying(s). The Certificates may have a Participation Factor which could result in an increase as well as in a decrease in value of the Redemption Amount. If the Certificates have an FX Exposure, the Redemption Amount of the Certificates may not only depend on the performance of the Underlying(s), but also on the development of the Conversion Rate.

If the Certificates are not automatically early redeemed, at maturity a Redemption Amount will only be paid in the case that the Underlying Performance of the Worst Performing Underlying is greater than 0 (zero). If the Underlying Performance of the Worst Performing Underlying is 0 (zero), there will be no Redemption Amount payable at all. **In such case, the investor will lose the total amount of the invested capital.**

Risks if the investor intends to sell or must sell the Certificates during their term:*Market value risk:*

The achievable sale price prior to the Maturity Date could be significantly lower than the purchase price paid by the investor.

The market value of the Certificates mainly depends on the

performance of the Underlying. In particular, the following factors may have an adverse effect on the market price of the Certificates:

- Changes in the expected intensity of the fluctuation of the Underlying (volatility)
- Remaining term of the Certificates
- Interest rate development
- Developments of the dividends of the Share

Each of these factors could have an effect on its own or reinforce or cancel each other.

Trading risk:

The Issuer is neither obliged to provide purchase and sale prices for the Certificates on a continuous basis on (i) the exchanges on which the Certificates may be listed or (ii) an over the counter (OTC) basis nor to buy back any Certificates. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Certificates could be temporarily limited or impossible.

Avsnitt D - Risker

Köpet av Certifikaten är förenat med vissa risker. Emittenten framhäver särskilt att beskrivningen av riskerna förenade med en investering i Certifikaten endast beskriver de väsentliga risker som var kända för Emittenten per dagen för Grundprospektet.

Punkt	Beskrivning av Punkt	Upplysningskrav
D.2	Huvudsakliga risker som är specifika för Emittenten	Varje tranche av Certifikaten medför en emittentrisk, även kallad gäldenärsrisk eller kreditrisk, för presumtiva investerare. En emittentrisk är risken för att COMMERZBANK tillfälligt eller permanent blir oförmöget att fullgöra sina skyldigheter att betala ränta och/eller inlösenbeloppet.

Därutöver är COMMERZBANK utsatt för olika risker i samband med sin affärsverksamhet. Sådana risker omfattar i synnerhet följande typer av risker:

Globala finansmarknadskriser och statsskuldkriser

De globala finansmarknadskriserna och statsskuldkriserna, i synnerhet i euroområdet, har haft en betydande väsentligt negativ effekt på Koncernens nettotillgångar, finansiella ställning och rörelseresultat. Det kan inte garanteras att Koncernen inte kommer att drabbas av ytterligare väsentligt negativa effekter i framtiden, i synnerhet om krisen åter skulle förvärras. Skulle krisen inom Europeiska monetära unionen eskalera ytterligare skulle det kunna innebära väsentligt negativa effekter för Koncernen, vilket, under vissa omständigheter även skulle kunna hota Koncernens existens. Koncernen innehar en betydande volym statspapper. Nedskrivningar och omvärderingar av sådana statspapper till ett lägre verkligt värde har tidigare haft väsentligt negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat i det förflutna, och kan få ytterligare negativa effekter i framtiden.

Makroekonomisk miljö

Den makroekonomiska miljö som rått under de senaste åren har påverkat Koncernens resultat negativt och Koncernens kraftiga beroende av det ekonomiska klimatet, i synnerhet i Tyskland, skulle kunna resultera i ytterligare avsevärt negativa effekter i det fall den ekonomiska konjunkturen skulle vända ned igen.

Motpartsrisk

Koncernen är exponerad för motpartsrisk (kreditrisk), bland annat beträffande stora enskilda lån och åtaganden koncentrerade till enskilda sektorer – så kallad bulkrisk – samt beträffande lån till gäldenärer som kan påverkas särskilt av statsskuldkrisen. Stängningen av fartygfinansieringsportföljen och portföljen för finansiering av kommersiella fastigheter är exponerad mot avsevärda risker i ljuset av den rådande svåra marknadsmiljön och volatiliteten i skepps- och fastighetspriser samt motpartsrisken (kreditrisken) som påverkas därav, liksom risken av betydande förändringar i värdet på fartyg som utgör säkerhet samt direkt ägda fastigheter och privata och kommersiella fastigheter som utgör säkerhet. Koncernen har i sin portfölj ett stort antal nödlidande lån, och det kan hända att utebliven betalning på lån inte är fullt täckt av säkerheter eller av tidigare gjorda nedskrivningar och avsättningar.

Marknadspris risker

Koncernen är utsatt för marknadsprisrisker i värderingen av aktier och andelar i investeringsfonder, samt för ränterisker, kreditspridningsrisker, valutarisker, volatilitets- och korrelationsrisker samt råvaruprisrisker.

Strategiska risker

Det finns en risk för att Koncernen inte kommer att dra nytta av sina strategiska planer eller endast kommer kunna göra det till viss del eller till högre kostnader än planerat, och att genomförandet av de planerade åtgärderna kanske inte kommer att leda till att de eftersträlvade strategiska målen uppnås.

Risker från konkurrensmiljön

De marknader inom vilka Koncernen är aktiv, i synnerhet den tyska marknaden (och i synnerhet affärer vad gäller privat- och företagskunder samt investment banking-verksamhet) och den polska marknaden, är karaktäriserade av intensiv konkurrens vad gäller pris och transaktionsvillkor vilket resulterar i avsevärd press på marginalerna.

Likviditetsrisker

Koncernen är beroende av regelbunden tillförsel av likviditet och en marknadsomfattande eller företagsspecifik likviditetsbrist kan få väsentliga negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat.

Operationella risker

Koncernen är utsatt för ett stort antal operationella risker, däribland risken för att medarbetarna utsätter Koncernen för omfattande risker på Koncernens bekostnad eller kommer att bryta mot lagstiftning relevant för regelefterlevnad vid utförandet av affärsaktiviteter och därigenom orsakar en plötslig uppkomst av avsevärda förluster vilka också indirekt skulle kunna leda till en ökning av kapitalkrav genom statlig reglering.

Risker från Goodwill-nedskrivningar

Det är möjligt att den goodwill som redovisas i Koncernens balansräkning och varumärken helt eller delvis måste skrivas ned som ett resultat av nedskrivningstester.

Risker från bankspecifik lagstiftning

Allt strängare krav avseende kapital och likviditet samt processuella krav och rapporteringskrav kan leda till att affärsmodellen i ett antal av Koncernens verksamheter ifrågasätts och kan få en negativ effekt för Koncernens konkurrenskraft, minska Koncernens lönsamhet eller göra det nödvändigt att anskaffa ytterligare aktiekapital. Andra lagreformer som föreslås i kölvattnet efter finanskrisen, till exempel bankskatt eller en möjlig skatt på finansiella transaktioner, separationen av egenhandel (*proprietary trading*) från placeringsverksamheten eller strängare upplysnings- eller organisationskrav, skulle väsentligen kunna påverka koncernens

affärmodell och konkurrensmiljö.

Juridiska risker

Tvister kan uppkomma inom COMMERZBANKs affärsverksamhet och deras utfall går inte att förutspå vilket medför risk för Koncernen. Exempelvis har skadeståndsanspråk på grund av bristfälliga investeringsråd lett till betydande ansvar för Koncernen och kan komma att leda till ytterligare betydande ansvar för Koncernen i framtiden. Betalnings- och ersättningsanspråk har riktats mot COMMERZBANK och dess dotterbolag, i vissa fall i domstol, i samband med vinstutdelningscertifikat och s.k. trust preferred securities som Koncernen emitterat. Resultaten av rättsprocesserna kan få väsentligt negativa effekter på Koncernen, utöver de anspråk som framställs i respektive fall. Regulatoriska processer, tillsynsprocesser och rättsliga förfaranden kan få en väsentlig negativ effekt på Koncernen. Rättsprocesser som inleds av lagstiftare, tillsynsmyndigheter och åklagare kan få en väsentlig negativ effekt på Koncernen.

D.6

Viktig information om de nyckelriskerna som är specifika för värdepapperen

Ingen sekundärmarknad omedelbart före slutlig inlösendag

Marknadsgarantens och/eller börsens handel med Certifikaten kommer att upphöra strax före Certifikatens Förfallodag. Dock kan priset på de Underliggande Tillgångarna och/eller omräkningskursen, vilka båda kan vara relevanta för Certifikaten, fortfarande ändras mellan den sista handelsdagen och Värderingsdagen, och alla typer av trösklar eller kurser som kan vara relevanta för betalning enligt Certifikaten kan nås, överskridas eller på annat sätt passeras för första gången. Detta kan vara till investerarens nackdel.

Ingen säkerhet

Certifikaten är ovillkorade förpliktelser för Emittenten. De garanteras varken av den Tyska Bankförningens Insättningsgarantinämnd (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) eller av den tyska lagen om insättningsgaranti och investerarskydd (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Det betyder att investerarna bär risken för att Emittenten inte kan fullgöra sina skyldigheter enligt Certifikaten, eller endast kan fullgöra dem delvis. Under dessa omständigheter är det möjligt att investeraren förlorar hela sitt kapital.

Den föreslagna skatten på finansiella transaktioner (FTT)

Den Europeiska Kommissionen har föreslagit en gemensam skatt på finansiella transaktioner (FTT) att implementeras i Belgien, Tyskland, Estland, Grekland, Spanien, Frankrike, Italien, Österrike, Portugal, Slovenien och Slovakien. Den föreslagna skatten på finansiella transaktioner kan under vissa omständigheter komma att omfatta viss handel i Certifikaten (inkluderat transaktioner på sekundärmarknaden). Skatten på finansiella transaktioner är emellertid föremål för förhandlingar mellan deltagande EU medlemsstater. Ytterligare EU medlemsstater kan välja att delta. Dessutom är det för närvarande osäkert när skatten på finansiella transaktioner kommer att införas och när skatten kommer att träda i kraft avseende handel med Certifikaten.

Risker i samband med lagen om återhämtning, rekonstruktion och avveckling för kreditinstitutioner med EU-förordningen om inrättandet av en gemensam rekonstruktionsmekanism samt förslaget för ett nytt EU regelverk avseende obligatorisk separation av vissa bankverksamheter

Lagen om återhämtning, rekonstruktion och avveckling för kreditinstitutioner (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG*) vilken är implementeringen till tysk lag av EU:s ramverk för återhämtning, rekonstruktion och avveckling för kreditinstitut och värdepappersföretag (Direktiv 2014/59/EU, "**Krishanteringsdirektivet**"), kan resultera i krav för betalning av kapital, ränta eller andra belopp enligt Certifikaten som är föremål för en konvertering till en eller flera instrument som utgör kärnprimärkapital för Emittenten, exempelvis stamaktier, eller en permanent reduktion, inbegripet till noll, genom intervention av behörig myndighet. Var och en av dessa åtgärder benämns härefter "**Regulatorisk Bail-in**". Innehavarna av Certifikaten skulle inte ha några krav mot Emittenten i sådant fall och det skulle inte föreligga några skyldigheter för Emittenten att betala något enligt Certifikaten. Detta skulle inträffa om Emittenten blir, eller anses ha blivit av den behöriga tillsynsmyndigheten, "inte livskraftig" (som definieras i den då tillämpliga lagen) och oförmögen att fortsätta sin reglerade verksamhet utan sådan konvertering, nedskrivning eller utan offentliga kapitaltillskott. Resolutionsmyndigheterna kommer att behöva utöva sin befogenhet på ett sätt som resulterar i (i) nedskrivning av kärnprimärkapitalinstrument (såsom stamaktier i Emittenten) i första hand i proportion till den relevanta förlusten (ii) därefter, nedskrivning av kapitalbeloppet av andra kapitalinstrument (tillkommande kärnkapital instrument och sekundärkapital instrument) på permanent basis eller konvertering till kärnprimärkapitalinstrument i enlighet med deras prioriteringsordning och (iii) därefter, att andra kvalificerade skulder - som de enligt Certifikaten – konverteras till kärnprimärkapital eller skrivs ner på permanent basis i enlighet med en fastställd prioriteringsordning. I vilken utsträckning Certifikatens kapitalbelopp kan bli föremål för Regulatorisk Bail-in beror på flera faktorer som är utanför Emittentens kontroll, och det kommer vara svårt att förutse, när, om alls, det kan inträffa en Regulatorisk Bail-in. Potentiella investerare bör överväga risken att de kan förlora hela sin investering, inklusive kapitalbeloppet samt upplupen ränta om en Regulatorisk Bail-in inträffar.

EU-förordningen genom vilken den gemensamma rekonstruktionsmekanismen ("**SRM-förordningen**") inrättats innehåller bestämmelser hänförliga till resolutionsplanering, tidiga ingripanden, resolutionsåtgärder och resolutionsverktyg som väntas bli tillämpliga från och med den 1 januari 2016. Ett centraliserat beslutsfattande kommer att byggas kring en gemensam resolutionsnämnd. Detta ramverk avser att säkerställa att det istället för nationella resolutionsmyndigheter inrättas en enda myndighet, nämnden, som kommer att fatta alla relevanta beslut för banker tillhör Bankunionen.

Den 29 januari 2014 antog den Europeiska Kommissionen ett förslag för en ny obligatorisk separation av vissa bankverksamheter från varandra. Förslaget är i många avseenden strängare än de krav som uppställs av den tyska banksepareringslagen (paragrafer 3(2)-(4), 25f samt 64s i den tyska banklagen *Kreditwesengesetz*, KWG). Förslaget innebär att europeiska banker som överskrider vissa

tröskelvärden under tre år i följd automatiskt kommer att förbjudas från att bedriva egenhandel (*proprietary trading*), snävt definierat som aktiviteter utan säkringssyfte eller koppling till kunders behov. Dessa tröskelvärden är antingen (i) att totala tillgångar är lika med eller överstigande 30 miljarder euro eller (ii) att totala tradingtillgångar och skulder är lika med eller överstiger 70 miljarder euro eller tio procent av de totala tillgångarna. Sådana banker kommer heller inte att tillåtas att köpa eller behålla andelar i hedgefonder eller bolag som bedriver egenhandel eller sponsrar hedgefonder. Andra trading- och investment banking-verksamheter – inklusive market making, utlåning till venture capital- och private equity-fonder, investering i och sponsring av komplex värdepapperisering, försäljning av och handel med derivat – är inte föremål för förbud men kan bli föremål för separation. Egenhandelsförbudet skulle äga tillämpning från och med den 1 januari 2017 och den effektiva separationen av andra tradingverksamheter skulle tillämpas från och med den 1 juli 2018. Skulle en obligatorisk separation införas kan ytterligare kostnader inte uteslutas, exempelvis högre finansieringskostnader, ökade kapitalkrav och kostnader förknippade med verksamheten på grund av separationen eller förlust av diversifieringsfördelar.

Krav på innehållande av källskatt enligt FATCA

Emittenten kan tvingas innehålla källskatt på 30 procent på vissa eller samtliga betalningar gjorda efter den 31 december 2016 avseende (i) Certifikat som emitteras eller ändras väsentligt efter den dag som infaller sex månader efter den dag då de slutliga bestämmelserna tillämpliga på så kallade *foreign passthru payments* ges in till US Federal Register, (ii) Certifikat som emitteras eller ändras väsentligt efter den dag som infaller sex månader efter den dag då skyldigheter av dess typ först behandlas som om de ger upphov till utdelningsmotsvarigheter eller (iii) Certifikat som betraktas som aktier i amerikanskt skatterättsligt hänseende, närhelst de utfärdats, enligt bestämmelserna om utländska konton i US Hiring Incentives to Restore Employment Act of 2010.

Effekter av en nedgradering av kreditvärdigheten

Värdet på Certifikaten kan påverkas av det kreditbetyg som kreditvärderingsföretag ger Emittenten. En eventuell nedgradering av Emittentens kreditvärdighet även om det bara sker i förhållande till ett av dessa kreditvärderingsföretag, skulle kunna resultera i att Certifikaten minskar i värde.

Justering och Extraordinär Uppsägning

Emittenten har rätt att utföra justeringar avseende Villkoren eller att säga upp och lösa in Certifikaten i förtid om vissa villkor är uppfyllda. Detta kan få negativa effekter på Certifikatens värde. Om Certifikaten sägs upp kan det belopp som skall utbetalas till Certifikatinnehavarna i händelse av en uppsägning av Certifikaten bli lägre än det belopp som Certifikatinnehavarna skulle ha erhållit om inte sådan uppsägning hade ägt rum.

Störande händelse

Emittenten har rätt att fastställa förekomsten av störande händelser (exempelvis marknadsstörande händelser) om kan leda till att både beräkningar och/eller betalningar enligt Certifikaten skjuts upp, vilket

kan påverka Certifikatens värde. Dessutom kan Emittenten, i vissa fall, uppskatta vissa relevanta priser när det gäller att nå eller passera gränser. Dessa uppskattningar kan avvika från det verkliga värdet.

Byte av Emittent

Om villkoren som uppställs i Villkoren är uppfyllda har Emittenten rätt att när som helst och utan medgivande från innehavarna av Certifikaten i sitt ställe utse ett annat företag som ny Emittent, och överlåta alla förpliktelser med anknytning till Certifikaten. I så fall får innehavaren av Certifikaten i allmänhet också ta den insolvensrisk som förknippas med den nya Emittenten.

Riskfaktorer som förknippas med de Underliggande Tillgångarna

Certifikaten är beroende av värdet på den Underliggande Tillgången och den risk som förknippas med den Underliggande Tillgången. Värdet av den Underliggande Tillgången beror på många faktorer som kan höra ihop. Det kan röra sig om ekonomiska, finansiella och politiska händelser som ligger utanför Emittentens kontroll. Avkastningen på en Underliggande Tillgång eller en indexkomponent kan inte betraktas som en indikation på framtida avkastning under Certifikatens löptid.

Risk förknippad med automatisk förtida inlösen

Under vissa omständigheter som anges i de relevanta Slutliga Villkoren kan Certifikaten komma att lösas in i förtid om vissa villkor är uppfyllda, vilket kan få en negativ påverkan på Certifikatens ekonomi för investeraren. Den automatiska förtida inlösen av Certifikaten och det relevanta Automatiska Förtida Inlösenbeloppet som skall betalas på den relevanta Automatiska Förtida Inlösendagen är avhängiga de Underliggande Tillgångarnas utveckling. Om Certifikaten har FX-exponering (valutaexponering) kan Certifikatens Automatiska Förtida Inlösenbelopp komma att bero inte bara på de Underliggande Tillgångarnas utveckling, utan även på Omräkningskursens utveckling.

Risk vid förfall

Inlösen av Certifikaten på Förfalldagen beror på utvecklingen för den Underliggande Tillgången. Certifikaten kan ha en Deltagandefaktor som kan resultera i en ökning såväl som en minskning i värdet av Inlösenbeloppet. Om Certifikaten har en Valutaexponering beror Certifikatens Inlösenbelopp inte bara på utvecklingen för den Underliggande Tillgången, utan även på den relevanta Omräkningskursens Utveckling.

Om Certifikaten inte blir föremål för automatisk förtida inlösen betalas ett Inlösenbelopp ut på förfalldagen endast om den Underliggande Tillgångens Utveckling för den Sämst Utvecklade Underliggande Tillgången är större än 0 (noll). Om den Underliggande Tillgångens Utveckling för den Sämst Utvecklade Underliggande Tillgången är 0 (noll) utbetalas inget Inlösenbelopp överhuvudtaget. **I så fall förlorar investeraren hela det investerade kapitalet.**

Risker om investeraren avser eller måste sälja Certifikaten under deras löptid:

Marknadsvärderisk:

Det försäljningspris som går att uppnå före Förfallodagen kan vara väsentligt lägre än det inköpspris som investeraren betalat.

Certifikatens marknadsvärde beror huvudsakligen på de Underliggande Tillgångarnas utveckling. I synnerhet kan följande faktorer ha en negativ inverkan på Certifikatens marknadsvärde:

- Förändringar i den förväntade intensiteten i fluktuationerna för den Underliggande Tillgången (volatilitet)
- Certifikatens återstående löptid
- Ränteutveckling
- Aktiens utdelningsutveckling

Var och en av dessa faktorer kan påverka i sig, eller förstärka eller utjämna varandra.

Handelsrisk:

Emittenten är varken skyldig att fortlöpande tillhandahålla köp- och säljkurser för Certifikaten på (i) de börser där Certifikaten är noterade eller på (ii) OTC-basis (over the counter), eller att köpa tillbaka Certifikat. Även om Emittenten normalt tillhandahåller köp- och säljkurser kan köp och försäljning av Certifikaten, under extraordinära marknadsvillkor eller vid tekniska problem, tillfälligt begränsas eller omöjliggöras.
