2. RATINGS

The Notes to be issued have not been rated.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

4. REASONS FOR THE OFFER AND USE OF PROCEEDS

- | | |

| (i) Reasons for the offer and use of proceeds: | The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit. |

7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT

(i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT** (*Structured Notes only*)

The value of the Notes, the payment of a coupon amount on a relevant interest payment date to a Noteholder, the payment of an automatic early redemption amount on a relevant automatic early redemption date and the payment of a redemption amount to a Noteholder on the maturity date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of one or several underlying instrument(s) within the basket. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of one or several underlying instrument(s) within the basket is higher than or equal to a predefined barrier performance.

The Notes may provide for an automatic early redemption linked to a specific event. Therefore, this may prevent the Noteholders from benefitting from the performance of the underlying instrument(s) over the whole period initially envisaged.

The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Noteholders.

Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Legal form: Public limited liability company (société anonyme). Legislation under which the Issuer operates: French law. Country of incorporation: France.</p> <p>B.19 / B.4b: Known trends affecting the guarantor and the industries in which it operates</p> <p>The macroeconomic environment saw a gradual improvement in 2017. This improvement is expected to continue in 2018, with accelerated growth in most major economic areas and more dynamic international trade flows. The markets should remain buoyant, although valuation levels</p>

raise the question of their long-term sustainability, and a certain volatility could resurface. Lastly, the central banks should continue the normalisation of their monetary policies, albeit more gradually.

In the Eurozone, growth should strengthen further in 2018, under the combined effect of the accommodative monetary and budgetary policies implemented, together with strong international demand.

For 2018, the regulatory agenda should focus on the European legislative process concerning the set of CRR2/CRD5 texts, as well as the finalisation and harmonisation of the various liability ratio requirements (MREL – Minimum Required Eligible Liabilities, and TLAC – Total Loss Absorbing Capacity).

The year 2018 will likely be marked by a highly uncertain geopolitical environment, following on from a certain number of events over the last two years. Important elections will be held in several European Union countries (in Italy, in particular), and the Brexit negotiations will continue. “Separatist” tensions (Catalonia) could further intensify. In addition, several areas of instability and tension could affect the global economy, whether in the Middle East or in Asia, with American policy currently being characterised by a certain unpredictability.

In Europe, provided that the political situation in Germany and in Italy becomes clearer, 2018 could signal a new impetus in European ambition.

Lastly, banks must continue to adapt to a certain number of fundamental shifts, especially the acceleration of technological changes, requiring them to radically transform their operational and relationship models.

Within this framework, and in order to generate stronger, profitable and sustainable growth, the Group’s priorities in 2018 will be to:

- continue its growth by implementing a series of ambitious initiatives aimed at all its high-potential customers (corporates, professionals and high net worth customers, bank insurance, Boursorama, ALD, etc.), while developing segments and services tailored to their changing needs;
- accelerate the digital transformation of all its businesses and functions, and in particular the digitalisation of its retail banking networks, both in France and abroad;
- maintain strict control of its costs, risks and capital allocation;
- continue its realignment via the disposal or closure of activities that do not have critical mass and/or do not generate synergies;

continue to implement its Culture and Conduct programme, which aims to develop the Société Générale culture by placing values, leadership quality and behavioural integrity at the very heart of the Group’s transformation, thereby building confidence among all its stakeholders (and mainly its customers).

Operational failure, termination or capacity constraints affecting institutions the Group does business with, or failure or breach of the Group's information technology systems, could result in losses.

To prepare its consolidated financial statements in accordance with IFRS as adopted by the European Union, the Group relies on assumptions and estimates which, if incorrect, could have a significant impact on its financial statements.

The Group's ability to attract and retain qualified employees, as well as significant changes in the regulatory framework related to employees and compensation, may materially adversely affect its performance.

A number of exceptional measures taken by governments, central banks and regulators could be amended or terminated.

other risks:

Risks related to the implementation of the Group's strategic plan.

The creditworthiness and credit ratings of the Issuer may affect the market value of the Notes.

		<p>The United Kingdom's impending departure from the European Union could adversely affect the Group.</p> <p>Since the Issuer is part of the Group, these risk factors are applicable to the Issuer.</p>
D.6	Key information on the key risks that are specific to the securities and risk warning to the effect that investors may lose the value of their entire investment or part of it	<p>The Notes may provide for an automatic early redemption linked to a specific event. Therefore, this may prevent the Noteholders from benefitting from the performance of the underlying instrument(s) over the whole period initially envisaged.</p> <p>The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes or deduct from any due amount the increased cost of hedging, and in each case without the prior consent of the Noteholders.</p> <p>Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person. Any payments on the Notes are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Notes benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Noteholder will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Notes benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under the Programme, as the Guarantor of the Notes issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Noteholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Notes, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Notes, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Notes.</p>

		<p>During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p>
Section E – Offer		
E.2.b	Reasons for the offer and use of proceeds	The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit.
E.3	Description of the terms and conditions of the offer	The Notes are not subject to a public offer in the European Economic Area.
E.4	Description of any interest that is material to the issue/ offer including conflicting interests	<p>Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.</p> <p>Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.</p> <p>The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.</p> <p>Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.</p>
E.7	Estimated expenses charged to the investor by the Issuer or the offeror	Not Applicable. No expenses are charged to the investor by the Issuer or the offeror.
