**2. RATINGS**

The Notes to be issued have not been rated.

**3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE**

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Issuer and Société Générale expect to enter into hedging transactions in order to hedge the Issuer's obligations under the Notes. Should any conflicts of interest arise between (i) the responsibilities of Société Générale as Calculation Agent for the Notes and (ii) the responsibilities of Société Générale as counterparty to the above mentioned hedging transactions, the Issuer and Société Générale hereby represent that such conflicts of interest will be resolved in a manner which respects the interests of the Noteholders.

If the Fund Management Company is a subsidiary of Société Générale S.A., there is a potential conflict of interests based on the function as fund management company of the Underlying. However, such conflict of interests will be resolved in a manner which respects the interests of the Noteholder.

**4. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

- (i) **Reasons for the offer:** See "Use of Proceeds" wording in Base Prospectus.
- (ii) **Estimated net proceeds:** Not Applicable
- (iii) **Estimated total expenses:** Not Applicable

**7. PERFORMANCE OF INDEX/FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS** *(Structured Notes only)*

Under these Notes, the Noteholders will not receive any coupons during the term of the Notes. At maturity, the Noteholders are entitled to receive an amount totally linked to the performance of the Underlying(s). The actual redemption date of these Notes is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small downward or upward movement of the Underlying(s) close to the threshold may result in a significantly larger increase or decrease of the return of the Notes. Only the performance of the worst performing Underlying(s) will be retained for the calculation of the performance. Accordingly, the Noteholders may not benefit from the performances of the best performing Underlying(s). The return of these Notes is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Notes more than any other single factor. Under these Notes, at maturity, the Noteholders may not receive the amount initially invested. Noteholders are entitled to receive a Final Redemption Amount which may, in case of an adverse evolution of the Underlying(s) during the term of the Notes, be significantly lower than the amount per Note initially invested.

Pursuant to the provisions of the applicable Additional Terms and Conditions, upon the occurrence of certain events or adjustments, the Calculation Agent may decide an Early Redemption of the Notes on the basis of Market Value.

The Notes may be redeemed early in the event that the outstanding aggregate nominal amount is reduced to or falls below 10% of the initial aggregate nominal amount of such Notes.

In such event the Issuer will have the option to redeem any outstanding Notes early upon giving not less than 15 Business Days notice. This could lead to investors receiving an amount at redemption earlier than had been anticipated in circumstances over which the investors have no control and may affect the value of their investment.

<b>C.15</b>	<b>How the value of the investment is affected by the value of the underlying instrument(s), unless the securities have a denomination of at least EUR 100,000.</b>	<p>Under these Notes, the Noteholders will not receive any coupons during the term of the Notes. At maturity, the Noteholders are entitled to receive an amount totally linked to the performance of the Underlying(s). The actual redemption date of these Notes is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small downward or upward movement of the Underlying(s) close to the threshold may result in a significantly larger increase or decrease of the return of the Notes. Only the performance of the worst performing Underlying(s) will be retained for the calculation of the performance. Accordingly, the Noteholders may not benefit from the performances of the best performing Underlying(s). The return of these Notes is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Notes more than any other single factor. Under these Notes, at maturity, the Noteholders may not receive the amount initially invested. Noteholders are entitled to receive a Final Redemption Amount which may, in case of an adverse evolution of the Underlying(s) during the term of the Notes, be significantly lower than the amount per Note initially invested.</p> <p>Pursuant to the provisions of the applicable Additional Terms and Conditions, upon the occurrence of certain events or adjustments, the Calculation Agent may decide an Early Redemption of the Notes on the basis of Market Value.</p>

The Notes will be early redeemed automatically upon the occurrence of a trigger event and the Automatic Early Redemption Amount shall be equal to Specified Denomination multiplied by the applicable formula.</p>

Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>The Group is exposed to the risks inherent in its core businesses.</p> <p>The Group's risk management focuses on the following main categories of risks, any of which could materially adversely affect the Group's business, results of operations and financial condition:</p> <p><b>Credit and counterparty risk (including country risk):</b> risk of losses arising from the inability of the Group's customers, issuers or other counterparties to meet their financial commitments. Credit risk includes counterparty risk linked to market transactions (replacement risk) and as well as securitisation activities.</p> <p><b>Market risk:</b> risk of a loss of value on financial instruments arising from changes in market parameters, volatility of these parameters and correlations between them.</p> <p><b>Operational risks:</b> risk of losses or sanctions due to inadequacies or failures in internal procedures or systems, human error or external events;</p> <p><b>Structural interest and exchange rate risk:</b> risk of loss or of write-downs in the Group's assets arising from variations in interest or exchange rates.</p> <p><b>Liquidity risk:</b> risk of the Group not being able to meet its cash or collateral requirements as they arise and at a reasonable cost.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Notes are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Notes benefiting from the Guarantee should note that the entitlement of the Noteholder will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee and, in relation to Secured Notes only, from the sums obtained following enforcement of the relevant Pledge Agreement.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Notes benefiting from the Guarantee.</p> <p>The Guarantee may cover only part of the relevant Issuer's payment obligations under the relevant Series of Notes. In such a case, Noteholders may retain the risk that payments under the Notes are less than the amounts due by the Issuer under the Notes.</p> <p>Société Générale will act as issuer under the Programme, as the Guarantor of the Notes issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe and also as provider of hedging instruments to each Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuers and the Guarantor and any of their subsidiaries and/or their</p>

		<p>affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Noteholders.</p> <p>The Issuers and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Notes, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Notes, the Issuers and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Notes.</p>
D.3	<b>Key information on the key risks that are specific to the securities</b>	<ul style="list-style-type: none"> <li>• The Notes may provide for an automatic early redemption linked to a specific event. Therefore, the Noteholder will not participate in any future performance of the underlying.</li> <li>• Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on Structured Notes are calculated by reference to certain underlyings, the return of the Notes is based on changes in the value of the underlying, which may fluctuate. Potential investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.</li> <li>• The interest rate or redemption amount of certain Notes may be linked to the occurrence or non-occurrence of certain events which are not connected with the Issuer or the Guarantor, such as credit, price levels, weather or sports events, the occurrence of which is beyond the control of the Issuer and the Guarantor and Noteholders are exposed to the risk of such event occurring or not, as the case may be.</li> <li>• The Terms and Conditions may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made to their terms. Furthermore, an early termination of the Notes by the Issuer may occur upon the occurrence of certain events.</li> </ul>

C.15	Hur värdet av investeringen påverkas av värdet på det eller de underliggande instrumenten, såvida inte värdepapperen har ett nominellt värde på minst 100 000 euro.	Under dessa Obligationer, kommer Obligationssnehavarna inte erhålla några kuponger under Obligationernas löptid. Vid löptidens slut, är Obligationssnehavarna berättigade till att erhålla en summa vilken är fullständigt länkat till utvecklingen av Underliggande. Det faktiska inlösendatumet för dessa Obligationer är direkt relaterat till utvecklingen av Underliggande: vid bättre utveckling infaller inlösendatumet tidigare, och motsatsvis, vid sämre utveckling infaller inlösendatumet senare. Avkastningen beror på huruvida utvecklingen av Underliggande når en viss förutbestämd nivå eller ej. Följaktligen kan en liten utveckling av Underliggande i positiv eller negativ riktning nära den förutbestämda nivån medföra en väsentligt större ökning eller minskning av avkastningen på Obligationerna. Endast utvecklingen för den Underliggande som utvecklats sämst ligger till grund för beräkningen av utvecklingen. Det är således möjligt att Obligationssnehavarna inte kan dra fördel av den Underliggande som presterar bäst. Avkastningen på dessa Obligationer är länkade till utvecklingen av de Underliggande som beräknas på förutbestämda Värderingsdatum, oberoende av nivån på dessa Underliggande mellan dessa Värderingsdatum. Ett resultat härav är att Stängningskursen för de Underliggande på dessa Värderingsdatum påverkar avkastningen mer än någon annan omständighet. När dessa Obligationer löper ut, är det möjligt att Obligationssnehavarna inte kommer att återfå det initialt investerade beloppet. Obligationssnehavarna är berättigade till att erhålla det Slutliga Inlösenbeloppet, vid en negativ

		<p>utveckling kan detta belopp vara väsentligen lägre än det belopp som initialt investerades per Obligation.</p> <p>I enlighet med bestämmelser i de tillämpliga Tilläggsvillkoren kan Beräkningsagenten, om vissa händelser eller justeringar inträffar, bestämma en Förtida Inlösen av Obligationerna baserat på Marknadsvärdet.</p>

Avsnitt D - Risker	
<b>D.2</b>	<p>Koncernen är exponerad för de risker som uppstår i samband med utövandet av sin kärnverksamhet.</p> <p>Koncernens riskhantering fokuserar på nedanstående huvudriskkategorier. Vilken som helst av dessa kan ha en negativ effekt på Koncernens verksamhet, rörelseresultat och finansiella villkor:</p> <p><b>Kredit- och motpartsrisk (inkluderat landrisk):</b> risk för förlust på grund av att Koncernens kunder, Emittenter eller andra motparter inte kan uppfylla sina finansiella åtaganden. Kreditrisken innefattar motpartsrisk som är länkad till marknadstransaktioner (ersättningsrisk) likväl som säkringsverksamhet.</p> <p><b>Marknadsrisk:</b> risk för att finansiella instrument förlorar värde på grund av förändrade marknadsparametrar, volatilitet i dessa parametrar och korrelationer mellan dessa.</p> <p><b>Operativa risker:</b> risk för förlust eller sanktioner på grund av oegentligheter eller fel i interna rutiner eller system, mänskliga fel eller externa händelser;</p> <p><b>Strukturella ränte- och valutakursrisker:</b> risk för förlust eller nedskrivning av Koncernens tillgångar som beror på förändringar i ränta eller valutakursen.</p> <p><b>Likviditetsrisker:</b> risk för att Koncernen inte kan möta gällande krav för likvida medel eller säkerhet när dessa uppstår och till en rimlig kostnad.</p> <p>Garantin utgör ett allmänt och ej säkerställt kontraktligt åliggande för Garantigivaren, och för ingen annan, alla eventuella betalningar för Obligationerna är relaterade till Garantigivarens kreditvärdighet. Blivande investerare i Obligationerna som gynnas av Garantin bör notera att Obligationssinnehavarens berättigande begränsas till de summor som erhålls i enlighet med vad som definierats för Garantin utslutande för de Säkerställda obligationerna, från de belopp som erhålls genom verkställande av relevant Pantavtal. Garantin är utslutande en betalningsgaranti och inte en garanti för resultat för aktuell Emittent eller några av deras andra åligganden i relation till de Obligationer som garantin gäller. Garantin kanske endast täcker en del av den aktuella Emittentens betalningsskyldigheter för relevant Obligationsserie. I sådana fall kan det</p>

		<p>hända att Obligationssnehavarna fortfarande bär risken för att sådana utbetalningar relaterade till Obligationerna är mindre än vad som ursprungligen indikerats.</p> <p>Société Générale agerar som Emittent för detta Program och som Garantigivare för Obligationer som emitteras av SG Issuer, SGA Société Générale Acceptance N.V. och SG Option Europe och tillhandahåller även säkringsinstrument för varje Emittent. På grund av detta exponeras investerare inte bara för kreditrisker som är relaterade till Garantigivaren, utan även för operativa risker som uppstår på grund av att Garantigivaren saknar oberoende då de utgör både Garantigivaren och tillhandahållare av säkringsinstrument.</p> <p>De möjliga intressekonflikter och operativa risker som kan uppstå på grund av denna avsaknad av oberoende anses till viss del mildras genom att det är olika divisioner inom Garantigivarens koncern som ansvarar för Garantin och för att tillhandahålla säkringsinstrument och genom att varje division drivs som en separat operativ enhet, skild av informationsbarriärer (så kallad kinesisk mur) och ledda av olika ledningsteam.</p> <p>Emittenten och Garantigivaren och alla dotterbolag och/eller koncernbolag kan i samband med andra affärsverksamheter inneha eller förvärva materiell information om de underliggande tillgångarna. Sådan verksamhet och information kan få konsekvenser som är negativa för Obligationssnehavarna. Emittenterna och Garantigivaren och alla deras dotterbolag och/eller koncernbolag kan agera i andra egenskaper i relation till Obligationerna, som t.ex. marknadsaktör, beräkningsombud eller agent. Det är därför möjligt att intressekonflikter uppstår.</p> <p>I samband med erbjudandet för Obligationerna kan Emittenten och Garantigivaren och/eller deras koncernbolag ingå en eller flera säkringstransaktioner för en referenstillgång eller relaterade derivat, vilket kan komma att påverka marknadspris, likviditet eller värde för Obligationerna.</p>
<b>D.3</b>	<b>Central information om de huvudsakliga risker som är specifika för värdepapperen</b>	<ul style="list-style-type: none"> <li>• Obligationerna kan ge en automatisk förtida inlösen som är knuten till en specifik händelse. Obligationssnehavaren kommer därför inte vara delaktiga i framtida resultat för underliggande instrument.</li> <li>• Betalningar (oavsett om dessa gäller kapital och/eller ränta och oavsett om det sker på förfalldagen eller vid annan tidpunkt) för Strukturerade produkter beräknas utifrån vissa underliggande instrument. Avkastningen för Obligationerna baseras på förändringar av värdet för underliggande instrument, vilket kan fluktuera. Potentiella investerare ska vara medvetna om att dessa Obligationer kan vara volatila och att det kan hända att de inte mottar någon ränta alls och att de kan komma att förlora hela eller en betydande del av deras kapital.</li> <li>• Ränta eller inlösenbelopp för vissa Obligationer kan vara knutna till vissa händelser som ligger utanför Garantigivarens kontroll, som t.ex. kredit, prisnivåer, väder eller sportevenemang. Garantigivare och Obligationssnehavarna är då exponerade för risken för att dessa händelser inträffar eller inte, beroende på vad som gäller i varje specifikt fall.</li> <li>• Villkoren kan innehålla klausuler om att vissa störningar på marknaden kan leda till förseningar i betalningen av Obligationerna eller att vissa förändringar av villkoren görs. Om vissa händelser inträffar kan Emittenten besluta om förtida slutdatum för Obligationerna.</li> </ul>

D.6	Viktig varning till investeraren	<p>VISSA EMISSIONER AV OBLIGATIONER KANSKE INTE ÄR EN LÄMPLIG INVESTERING FÖR ALLA INVESTERARE. FÖR ATT KÖPA OBLIGATIONER BÖR INVESTERAREN HA KUNSKAP OM OCH KUNNA BÄRA AVKASTNINGEN, MARKNADSLIKVIDIETEN, STRUKTUR, INLÖSEN OCH ANDRA RISKER SOM ASSOCIERAS MED OBLIGATIONEN.</p> <p>I VÄRSTA FALL KAN INVESTERARE BÄRA HELA FÖRLUSTEN FÖR SIN INVESTERING OCH DE SKA DÄRFÖR ENDAST TA BESLUT OM ATT INVESTERA I OBLIGATIONERNA EFTER NOGGRANT ÖVERVÄGANDE TILLSAMMANS MED SINA RÅDGIVARE, DÅR DE BEAKTAR HUR LÄMPLIGT DETTA KÖP ÄR I RELATION TILL DERAS SPECIFIKA FINANSIELLA OMSTÄNDIGHETER.</p>

Om någon intressekonflikt skulle uppkomma mellan (i) Société Générales ansvar som Beräkningsagent för Obligationerna och (ii) Société Générales ansvar som motpart till de ovan nämnda hedgingtransaktionerna, utlovar Emittenten och Société Générale härmed att sådana intressekonflikter ska lösas på ett sätt som respekterar Obligationsinnehavarnas intressen.</p> <p>Om Fondförvaltarbolaget är ett dotterbolag till Société Générale S.A., och det är en potentiell intressekonflikt baserad på funktionen som fondförvaltarbolag för det Underliggande.
