7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT

(i) PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT *(Structured Notes only)*

The value of the Notes and the payment of a redemption amount to a Noteholder on the maturity date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of the basket of underlying instruments. The amounts to be paid are determined on the basis of an amount which depends on the performance of the basket of underlying instruments.

The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes, or deduct from any due amount the increase cost of hedging, and in each case without the consent of the Noteholders.

Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Potential investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

The Guarantee constitutes a direct, unconditional, unsecured and general obligation of the Guarantor and ranks and will rank pari passu with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits.
B.19	Information about the guarantor as if it were the issuer of the same type of security that is subject of the guarantee	The information about Société Générale as if it were the Issuer of the same type of Notes that is subject of the Guarantee is set out in accordance with Elements B.19 / B.1, B.19 / B.2, B.19 / B.4b, B.19 / B.5, B.19 / B.9, B.19 / B.10, B.19 / B.12, B.19 / B.13, B.19 / B.14, B.19 / B.15, B.19 / B.16 below, respectively: B.19/ B.1: Société Générale B.19/ B.2: Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (société anonyme). Legislation under which the Issuer operates: French law. Country of incorporation: France. B.19/ B.4b: The euro zone and, in particular France are very gradually moving towards recovery. Furthermore, the improved economic climate in the United States remains contingent on how the country will make an exit from its quantitative and fiscal monetary policies. In the emerging countries, markets are contending with a surge in capital flight. Current developments could weigh on emerging country growth, but not to the extent of triggering systemic financial crises akin to those observed in the 1990s. Several regulations on market activity operations are continuing to come into effect

	<p>in Europe and the United States. New fundamental developments in retail banking are also expected. In a restrictive macro-economic environment, the major goal of market place discussions is to produce a sustainable growth model for the financial sector which maintains banks' ability to finance the economy amid more restrictive budget policies. However, it is clear that the addition of new regulatory constraints, compounded by potential competitive bias between countries, will weigh significantly on the profitability of some activities. They may therefore influence the development model of certain players in the banking sector. The Société Générale Group continues to adapt the structure of its business lines and embarked on the second step of its transformation plan to refocus its structure on three pillars of excellence:</p> <ul style="list-style-type: none"> • French Retail Banking; • International retail Banking and Financial Services (IBFS); • Global Banking and Investor Solutions (GBIS). <p>B.19/ B.5: The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. The Group relies on three complementary core businesses:</p> <ul style="list-style-type: none"> • French Retail Banking; • International Retail Banking, Financial Services and Insurance and • Corporate and Investment Banking, Private Banking, Asset and Wealth Management and Securities Services. <p>Société Générale is the parent company of the Société Générale Group.</p> <p>B.19/ B.9: Not Applicable. The Issuer does not make any figure of profit forecast or estimate.</p> <p>B.19/B.10: Not applicable. The audit report does not include any qualification.</p> <p>B.19/B.12:</p>

Section D – Risks		
D.2	Key information on the key risks that are specific to the issuer and the guarantor	<p>The Group is exposed to the risks inherent in its core businesses.</p> <p>The Group's risk management focuses on the following main categories of risks, any of which could materially adversely affect the Group's business, results of operations and financial condition:</p> <p>Credit and counterparty risk (including country risk): risk of losses arising from the inability of the Group's customers, issuers or other counterparties to meet their financial commitments. Credit risk includes counterparty risk linked to market transactions (replacement risk) and as well as securitisation activities.</p> <p>Market risk: risk of a loss of value on financial instruments arising from changes in market parameters, volatility of these parameters and correlations between them.</p> <p>Operational risks: risk of losses or sanctions due to inadequacies or failures in internal procedures or systems, human error or external events;</p> <p>Structural interest and exchange rate risk: risk of loss or of write-downs in the Group's assets arising from variations in interest or exchange rates.</p> <p>Liquidity risk: risk of the Group not being able to meet its cash or collateral requirements as they arise and at a reasonable cost.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Notes are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Notes benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Noteholder will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim</p>

		<p>against the Issuer and, in relation to Secured Notes only, from the sums obtained following enforcement of the relevant Pledge Agreement.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Notes benefiting from the Guarantee.</p> <p>The Guarantee may cover only part of the relevant Issuer's payment obligations under the relevant Series of Notes. In such a case, Noteholders may retain the risk that payments under the Guarantee are less than the amounts due by the Issuer under the Notes.</p> <p>Société Générale will act as issuer under the Programme, as the Guarantor of the Notes issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Noteholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Notes, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Notes, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Notes.</p>
D.6	Key information on the key risks that are specific to the securities and risk warning to the effect that investors may lose the value of their entire investment or part of it	<p>The terms and conditions of the Notes may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Notes allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the maturity date of the Notes, postpone the maturity date of the Notes, early redeem the Notes on the basis of the market value of these Notes, or deduct from any due amount the increase cost of hedging, and in each case without the consent of the Noteholders.</p> <p>Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on the Notes are calculated by reference to certain underlying(s), the return of the Notes is based on changes in the value of the underlying(s), which may fluctuate. Potential investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.</p> <p>During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p>

Section E – Offer		
E.2.b	Reasons for the offer and use of proceeds	The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit.
E.3	Description of the terms and conditions of the offer	<p>Public Offer Jurisdiction(s): Sweden</p> <p>Offer Period: from 01/09/2014 to 17/10/2014</p> <p>Offer Price: The Notes will be offered at the Issue Price increased by fees, if any, as mentioned below.</p> <p>Conditions to which the offer is subject: Offers of the Notes are conditional on their issue and, on any additional conditions set out in the standard terms of business of the financial intermediaries, notified to investors by such relevant financial intermediaries.</p> <p>The Issuer reserves the right to close the Offer Period prior to its stated expiry for any reason.</p> <p>The Issuer reserves the right to withdraw the offer and cancel the issuance of the Notes for any reason at any time on or prior to the Issue Date. For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such right, no potential investor shall be entitled to subscribe or otherwise acquire the Notes.</p>
E.4	Description of any interest that is material to the issue/offer including conflicting interests	Save for any fees payable to the Dealer, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.
E.7	Estimated expenses charged to the investor by the Issuer or the offeror	The expenses charged to the investor will be up to 2% of Issue Price per Note, paid by the purchaser to Mangold Fondkommission AB or agent appointed by Mangold Fondkommission AB.

B.14	Uttalande huruvida emittenten är beroende av andra företag inom koncernen	Se Punkt B.5 ovan för Emittentens position inom Koncernen. SG Issuer är beroende av Société Générale Bank & Trust inom Koncernen.
B.15	Beskrivning av emittentens huvudsakliga verksamhet	Den huvudsakliga verksamheten för SG Issuer är att ta upp finansiering genom emission av skuldvärdepapper avsedda att placeras hos institutionella kunder eller privatkunder genom distributörer som samarbetar med Société Générale. Finansieringen som erhålls genom emissioner av sådana skuldvärdepapper lånas sedan vidare till Société Générale och till andra medlemmar i Koncernen.
B.16	I den mån det är känt för emittenten, huruvida emittenten kontrolleras, direkt eller indirekt, och av vem samt beskrivning av karaktären av sådan kontroll	SG Issuer är ett 100 procent ägt dotterföretag till Société Générale Bank & Trust S.A. som i sin tur är ett 100 procent ägt dotterföretag till Société Générale och är ett fullt konsoliderat bolag.
B.18	Garantins art och omfattning	Obligationerna är ovillkorligen och oåterkalleligen garanterade av Société Générale (Garanten) enligt Garantin daterad 29 april 2014. Garantin utgör en direkt, ovillkorad, icke-säkerställd och allmän förpliktelse för Garanten och rangordnas och kommer att rangordnas lika med alla övriga existerande och framtida direkta, ovillkorade, icke-säkerställda och allmänna förpliktelser för Garanten, inklusive de som avser insättningar.
B.19	Information om garanten som om den var emittenten av samma typ av värdepapper som omfattas av garantin	Informationen om Société Générale som om den var Emittent av samma typ av Obligationer som omfattas av Garantin anges i enlighet med respektive Punkt B.19 / B.1, B.19 / B.2, B.19 / B.4b, B.19 / B.5, B.19 / B.9, B.19 / B.10, B.19 / B.12, B.19 / B.13, B.19 / B.14, B.19 / B.15 och B.19 / B.16 nedan:

	<p>B.19/ B.1: Société Générale</p> <p>B.19/ B.2:</p> <p>Säte: 29, boulevard Haussmann, 75009 Paris, Frankrike.</p> <p>Juridisk form: Publikt aktiebolag (société anonyme).</p> <p>Lagstiftning under vilken Emittenten agerar: fransk rätt.</p> <p>Land för bildande: Frankrike.</p> <p>B.19/ B.4b:</p> <p>Eurozonen och, särskilt Frankrike, rör sig mycket gradvis mot återhämtning. Vidare är det förbättrade ekonomiska klimatet i USA fortsatt beroende av hur landet kommer att lämna dess kvantitativa och skattemässiga monetära policys.</p> <p>I tillväxtländer brottas marknader med en ökning i kapitalflykt. Nuvarande utvecklingar kan tynga tillväxtländernas tillväxt, om än inte i sådan omfattning att det utlöser finansiella kriser liknande de som sågs på 1990-talet.</p> <p>Flera förordningar beträffande marknadsaktiviteter fortsätter att träda i kraft inom Europa och USA.</p> <p>Nya grundläggande förändringar väntas också inom bankverksamhet för privatkunder.</p> <p>I en restriktiv makroekonomisk miljö är det stora målet för marknadsdiskussioner att producera en hållbar tillväxtmodell för den finansiella sektorn som behåller bankers förmåga att finansiera ekonomin trots mer restriktiva budgetpolicys. Men det är klart att tillkomsten av nya regulatoriska begränsningar, förstärkt av potentiella konkurrensmässiga skillnader mellan länder, kommer att väsentligt tynga lönsamheten för visa aktiviteter. Detta kan därför påverka utvecklingsmodellen för vissa aktörer inom banksektorn.</p> <p>Société Générale-Koncernen fortsätter att anpassa strukturen för sina affärssegment och påbörjade det andra steget i dess omvandlingsplan för att åter fokusera på tre pelare av excellens:</p> <ul style="list-style-type: none"> • Fransk bankverksamhet för privatkunder; • Internationella bank- och finansiella tjänster för privatkunder; samt • Globala bank- och investerarlösningar. <p>B.19/ B.5:</p> <p>Koncernen erbjuder en bred uppsättning av rådgivningstjänster och skraddarsydda finansiella lösningar för individuella kunder, stora företag och institutionella investerare. Koncernen förlitar sig på tre kärnverksamheter som kompletterar varandra:</p> <ul style="list-style-type: none"> • Fransk bankverksamhet för privatkunder, • Internationell bankverksamhet för privatkunder, finansiella tjänster och försäkring, samt • Företags- och investmentbankverksamhet, Private Banking, tillgångs- och förmögenhetsförvaltning och Värdepapperstjänster. <p>Société Générale är moderbolag i Société Générale-Koncernen.</p> <p>B.19/ B.9:</p> <p>Ej tillämplig. Emittenten lämnar inte någon siffra avseende resultatprognos eller –uppskattning.</p> <p>B.19/B.10:</p> <p>Ej tillämplig. Revisionsberättelsen innehåller inte någon anmärkning.</p> <p>B.19/B.12:</p>

		<p>som Garant för Obligationerna emitterade av Emittenten och också som leverantör av hedgningsinstrument till Emittenten. Som en följd är investerare inte bara exponerade mot kreditrisken hos Garanten men även mot operationella risker hänförliga till avsaknaden på oberoende för Garanten, när denne ikläder sig skyldigheter och förpliktelser som Garant och leverantör av hedgningsinstrument.</p> <p>De potentiella intressekonflikter och operativa risker som kan uppstå på grund av sådan avsaknad av oberoende anses till viss del mildras genom att det är olika divisioner inom Garantens koncern som ansvarar för att implementera Garantin och för att tillhandahålla hedgningsinstrument och genom att varje division drivs som en separat operativ enhet, avskild genom informationsbarriärer (så kallade kinesiska väggar) och ledda av olika ledningsteam.</p> <p>Emittenten och Garanten och varje av dessas dotterföretag och/eller närstående företag kan i samband med andra affärsverksamheter inneha eller förvärva väsentlig information om de underliggande tillgångarna. Sådan verksamhet och information kan få konsekvenser som är negativa för Obligationsinnehavarna.</p> <p>Emittenten och Garanten och varje av dessas dotterföretag och/eller närstående företag kan agera i andra roller avseende Obligationerna, till exempel som market-maker, beräkningsagent eller agent. Följaktligen kan potentiella intressekonflikter uppkomma.</p> <p>I samband med erbjudandet av Obligationerna kan Emittenten och Garanten och/eller dessas närstående företag ingå en eller flera hedgningstransaktioner avseende en referenstillgång(ar) eller relaterade derivat, vilket kan påverka marknadskursen, likviditeten eller värdet för Obligationerna.</p>
D.6	Nyckelinformation om de väsentliga riskerna som är specifika för värdepapperen och riskvarning att investerare kan förlora värdet av deras hela investering eller del av den	<p>Villkoren för Obligationerna kan innehålla bestämmelser enligt vilka inträffandet av vissa marknadsstörande händelser kan föranleda att förseningar i avveckling av Obligationerna uppkommer eller att vissa förändringar görs. Dessutom om händelser som påverkar de(t) underliggande instrumenten(et) inträffar, tillåter villkoren för Obligationerna att Emittenten byter ut de(t) underliggande instrumenten(et) mot nya(tt) underliggande instrument, avslutar exponeringen mot de(t) underliggande instrumenten(et) och tillämpa en referensränta på de likvider som erhålls på detta sätt till förfallodagen för Obligationerna, senarelägga förfallodagen för Obligationerna, lösa in Obligationerna i förtid på basis av marknadsvärdet för dessa Obligationer eller dra ifrån från varje belopp som ska erläggas den ökade hedgningskostnaden och, i varje fall, utan föregående samtycke från Obligationsinnehavarna.</p> <p>Betalningar (oavsett om avseende kapital och/eller ränta och oavsett om vid förfall eller annars) på Obligationerna beräknas genom referens till viss(a) underliggande, avkastningen på Obligationerna baseras på förändringar i värdet på de(t) underliggande, vilket kan fluktuera. Potentiella investerare bör vara medvetna om att dessa Obligationer kan vara volatila och att de kanske inte erhåller någon ränta och att de kan förlora hela eller en väsentlig andel av deras kapitalbelopp.</p> <p>Under Obligationernas löptid kan marknadsvärdet för dessa Obligationer vara lägre än det investerade kapitalet. Vidare kan en insolvens för Emittenten och Garanten resultera i en total förlust av det investerade</p>
